EDUCATION

University of Cambridge | *MSc Computer Science (Specialisation in Human-Computer Interaction)* 2014 - 2015

- Achieved Distinction grade in thesis on responsive UI patterns, resulting in 2 published papers in HCI conferences
- Led departmental web development initiative, improving lab website accessibility scores from 42 to 94 WCAG compliance

ETH Zurich | *BSc Computer Science* 2010 - 2013

- Graduated with honors (top 12% of cohort) with focus on web technologies and interactive systems
- Co-founded ETH Web Collective, growing the community to 450+ active members across 3 years

EXPERIENCE

Figma | *Staff Frontend Engineer* 2021 - Present

- Architected and shipped responsive design system component library reducing implementation time by 62% across 40+ product teams
- Led migration of legacy Vue.js rendering engine to React with WebGL optimization, improving canvas performance by 3.2x and increasing collaboration features adoption by 47%
- Mentored 6 junior engineers and led weekly frontend architecture reviews, establishing coding standards that reduced bug escape rate by 41%

Stripe | *Senior Frontend Engineer* 2018 - 2021

- Designed and implemented payment forms abstraction layer in TypeScript/React, reducing PCI compliance implementation time from 8 weeks to 2 weeks for 120+ merchants
- Optimized critical checkout flow reducing bundle size by 45% and First Contentful Paint by 2.1s, increasing conversion rate by 8.3%
- Established frontend testing infrastructure and metrics dashboard, achieving 94% code coverage across codebase and reducing production incidents by 56%

Datadog | *Senior Frontend Engineer* 2015 - 2018

- Built real-time dashboard visualization engine handling 50K+ metrics updates/second using Vue.js and WebSockets, supporting 2000+ enterprise customers
- Implemented advanced filtering and query syntax UI (similar to SQL), improving customer query construction time by 68% and reducing support tickets by 34%
- Drove adoption of TypeScript across 25 frontend services (500K+ lines of code), reducing runtime errors by 72% and improving developer productivity by 38%

Shopify | *Frontend Engineer* 2013 - 2015

- Developed responsive admin dashboard v2 in React and SCSS, shipped to 800K+ merchants and processing \$80B+ in annual GMV
- Optimized image uploads pipeline reducing average upload time from 12s to 1.8s (86% improvement) by implementing lazy loading and CDN edge optimization
- Collaborated with design team to build Polaris design system MVP with 45 reusable components, standardizing UX across 12 product teams

PROJECTS

ChromaFlow - Advanced Color Palette Generator | *React 18, TypeScript, Three.js, TailwindCSS, Node.js* 2022 - 2023

- Built AI-powered color harmony generator with 3D color space visualization, achieving 250K+ downloads and 4.8/5 star rating on ProductHunt
- Optimized WebGL rendering achieving 60fps on mid-range devices by implementing instance rendering and shader optimization, reducing GPU memory usage by 52%

AccessViz - Accessibility Audit Dashboard | *Next.js, TypeScript, PostgreSQL, Playwright, D3.js* 2020 - 2021

- Created open-source WCAG compliance monitoring tool with 2.1K GitHub stars, used by 50+ organizations for automated accessibility testing
- Engineered scanning engine to audit 5000+ pages daily by implementing headless browser pooling, reducing scan time by 71% and server costs by \$4K/month

EXTRACURRICULAR

React Europe Conference | *Technical Speaker & Program Committee Member* 2019 - Present

- Delivered 4 keynote talks on advanced React patterns and performance optimization to 3000+ attendees across multiple years

- Curated technical agenda for 2023 conference, selecting 35 talks from 180+ submissions resulting in 92% attendee satisfaction score

Frontend Masters Community | *Core Maintainer & Mentor*

2017 - Present

- Contributed 120+ hours of mentoring to junior frontend engineers through 1-on-1 sessions and code reviews, 8 mentees progressed to senior roles
- Maintained open-source UI component library with 15K GitHub stars, triaging 200+ issues annually and merging 60+ community contributions

TECHNICAL SKILLS

Languages – JavaScript (ES6+), TypeScript, HTML5, CSS3/SCSS, GraphQL, SQL

Technologies – React, Next.js, Vue.js, Webpack, Vite, Redux, MobX, Jest, Cypress, Playwright, WebGL, Canvas API, WebSockets, Service Workers

Tools – Git, Docker, GitHub, Figma, Chrome DevTools, Lighthouse, WebPageTest, Datadog, New Relic, Linear, Jira, Notion
