EDUCATION

University of Michigan <i>B.S. in Computer Science</i>	2019 - 2023
- Achieved Dean's List honors all 4 semesters with 3.87 GPA in Computer Science - Led UI/UX design workshop for 200+ students through ACM Michigan chapter	
Georgia Institute of Technology <i>Professional Certificate in Full-Stack Web Development</i>	2023 - 2024
- Completed advanced bootcamp with focus on React, Node.js, and cloud architecture - Ranked top 8% among 500+ participants in capstone project competition	

EXPERIENCE

Figma <i>Frontend Engineer II</i>	Jan 2024 - Present
- Optimized component library rendering pipeline reducing bundle size by 34% and improving page load time by 1.8 seconds for 2M+ users - Implemented real-time collaborative features using WebSocket architecture, decreasing team latency by 62% and enabling 15+ simultaneous collaborators - Mentored 2 junior engineers on advanced React patterns and component architecture, resulting in 40% faster onboarding	
Stripe <i>Senior Frontend Engineer</i>	Aug 2022 - Dec 2023
- Redesigned payment dashboard UI increasing merchant conversion rate by 28% through A/B testing across 50K+ test users - Led migration of legacy Angular codebase to modern React/TypeScript stack across 12 projects, reducing technical debt by 45% - Established frontend performance monitoring framework using Sentry and DataDog, reducing production bugs by 56% quarter-over-quarter	
Notion <i>Frontend Engineer</i>	Mar 2021 - Jul 2022
- Built responsive database UI component library with 18 reusable components, accelerating feature development by 35% - Decreased initial page load from 4.2s to 1.9s through code-splitting and lazy loading optimization for 5M+ daily active users - Collaborated with design team to implement accessibility improvements (WCAG 2.1 AA compliance), increasing accessibility audit score by 41%	

PROJECTS

FlowState - Collaborative Code Editor <i>React, TypeScript, WebSocket, Monaco Editor, Node.js, PostgreSQL</i>	Jun 2023 - Sep 2023
- Engineered real-time code synchronization with operational transformation algorithm supporting 12+ concurrent users without conflicts - Achieved 99.2% uptime with auto-scaling infrastructure on AWS Lambda, handling 500+ peak concurrent sessions	
DesignSystem - Open Source React UI Library <i>React, Storybook, Jest, TypeScript, CSS-in-JS</i>	Jan 2023 - Present
- Published 45+ production-ready components with comprehensive documentation, accumulating 12K+ GitHub stars and 850+ weekly npm downloads - Implemented automated visual regression testing reducing manual QA time by 73% across 200+ component variants	
AnalyticsPro - Real-time Dashboard Platform <i>Next.js, TailwindCSS, Chart.js, Redux, Firebase</i>	Aug 2022 - Nov 2022
- Built data visualization dashboard processing 2M+ events daily with sub-100ms query response times using optimized indexing - Reduced front-end rendering time by 68% through React memo, useMemo hooks, and virtualization of large datasets	
LocalStack - Developer Tools Browser Extension <i>Chrome Extension API, React, TypeScript, IndexedDB</i>	Feb 2022 - May 2022
- Created productivity browser extension with 2K+ active users, delivering 15+ development utility features with zero performance overhead - Implemented offline-first architecture using IndexedDB, enabling 98% feature functionality without internet connection	

EXTRACURRICULAR

React Community Conference <i>Speaker & Panelist</i>	2023 - Present
- Delivered 2 keynote talks on 'Advanced React Performance Optimization' reaching 1,200+ live attendees and 45K+ YouTube views - Mentored 8 early-career frontend engineers through structured 6-week open-source contribution program	
Frontend Architects GitHub Organization <i>Core Maintainer</i>	2022 - Present
Maintained 5 open-source projects with 250K+ combined npm downloads and reviewed 180+ community pull requests	

- Triaged and resolved 95% of issues within 48 hours, maintaining 4.8/5 community satisfaction rating

TECHNICAL SKILLS

Languages – JavaScript, TypeScript, HTML5, CSS3, GraphQL

Technologies – React, Next.js, Redux, Vue.js, Webpack, Babel, WebSocket, REST APIs, Material-UI, TailwindCSS

Tools – Git, GitHub, VS Code, Figma, Chrome DevTools, Jest, React Testing Library, Storybook, Docker, AWS, Sentry
